Repeater frequency: 146.91 MHZ.
MEETINGS: Fourth Tuesday each month at 7:00 PM Jaycees Building 409 Singleton Ave. NET: Thursdays 7:00 PM 146.91 MHZ

SPEAKER FOUND FOR JUNE MEETING!

The June meeting will feature a speaker from Citizens Against Crime, Mr. Lloyd Griffith. He will present a program on crime awareness, including preventative measures that you can use to reduce the vulnerability of your life and property. This is a professional presentation and members are encouraged to bring their spouses. The program lasts 45 minutes. Please help us have a full attendance which provides the greatest chance of obtaining future speakers.

NEW AUTOPATCH CODE

Look on your mailing label for this code.

NEW NET CONTROL OPERATOR

Don Joerger, WB4CCB has once again come forward to perform net control duties until a more permanent arrangement can be made. Les, Bud and Gene are sharing the load with him. It is still hoped that someone who has not run the net in the past will volunteer to "take the helm" for a while to relieve the burden that so often falls on the same people each time. The net control operator can develop valuable skills and a better knowledge of the club and its members.

NEW MEMBERS

The club is pleased to have the following hams added to our roll and would hope everyone will do their best to make them welcome:

KB4YLY	WAYNE SAROSI
K4EOS	CLYDE LEE
KB4PRN	JEREMY ISIKOFF
KA4WIQ	JOHN PHILLIPS
W4VKF	BOB MANNING

CIVIL DEFENSE NEWS

A civil defense drill is scheduled for 6 June 1987 which will involve a simulated emergency in the county. CD will require the assistance of local hams to man the various radio positions used in the drill. Please contact Art Zippler KH6GH 636-1805 if you will be available for this event.
CD NET: 7:00 PM each Wednesday on the CD repeater in Rockledge 147.135 MHZ (+600 shift). CD MEETINGS: 7:30 PM on second Tuesday each month at CD HQ on Cherry Blvd in Rockledge.

EDITORIAL CORNER

The club has had many new members added to our roll of late, some of whom are Novices or recent upgrades. The new hams can benefit from the experience that the club has in the varied interests of our membership. Please take the time to meet the new members and offer help in getting them on the air. All of us had those "ELMERS" when we got started, and we are obligated to pass it on.
